Anti-Inflammatory Living and "The New Reality Diet™": Why a Gluten-Free Diet Alone Does Not Work Anymore

EnteroLab.com was launched in 2000 because our medical research and then new fecal antibody testing methodology revealed how huge a public health problem "Gluten Sensitivity" was and would come to be.

Twenty-five years later, we now know that gluten was just the first of the highly antigenic foods universally eaten in large quantities to create a huge immune fire in people which, in turn, causes other inflammation-mediated problems in the body. Today, however, a gluten-free diet alone no longer works to resolve these issues. The anti-inflammatory diet necessary to address the health problems of today I now call "The New Reality Diet™"; and the public health challenge we all face as a consequence, "The New Reality Health and Longevity."™

Over the past 26 years we at **EnteroLab.com** have seen huge spikes in the prevalence of multiple food sensitivities, intestinal malabsorption, autism, psychoneurologic syndromes, autoimmune/chronic immune diseases, obesity, cancer, and an overall declining health of all age groups including children. We have research evidence that this stems from, among other reasons, hyper-stimulation of the immune system by environmental stimuli, and poly-vaccination.

Executing a long-standing plan to expand internationally has now taken place beginning in 2024 with the analytical laboratory of EnteroLab.com moving to Greece, as well as our maiden launch of EnteroLab Pet & Vet for testing dogs (also available at Enterolab.com). We are now also creating a bonafide Health Tourism facility in Europe, likely also to be based in Greece, with information for this available at **RegenesisCenter.org.**

At this facility (and tele-electronically) We Will Be Offering:

- EnteroLab Testing
- Health Consultation
- Educational Seminars
- Food Services for the Food-Sensitive Patron
- My Patented Oro-Intestinal Fitness Products
- Recreation
- Specialized Fitness Programs
- Healing Water Balneotherapy
- Musical Medicine, Sing If You Want To
- High End Tours of the Country and Regions

We are now again offering phone consultations to review EnteroLab test results; to inform clients about how to hasten recovery with my specialized and patented Oro-Intestinal Fitness treatment products (please see the information that follows in this brochure) that focus on total renewal of mouth and intestinal bacterial florae; and to prescribe an optimal anti-inflammatory "New Reality Diet™", individualized from current food sensitivity results and existing dietary preferences.

Thank you for the opportunity to continue to serve your intestinal and overall health for another 25 years!

To schedule a paid phone consultation now with one of our nutritional professionals, to order our Oro-Intestinal Fitness products, or to obtain more information on any of our services please call us in the United States at: **1-972-686-6869** *or email us at:* **FinerHealth@proton.me**

Gratefully yours,

EnteroLab Testing

In 2000, EnteroLab.com and FinerHealth.com Revolutionized Internet Health Services

By becoming the first online medical laboratory, the first to offer online consultation appointments and by telemedicine (phone), and among the first medical/health informational websites. Since then, Dr. Kenneth Fine MD using these services has helped hundreds of thousands of people suffering from intestinal, chronic immune, autoimmune syndromes, celiac disease, and non-celiac gluten sensitivity among many others.

As the FinerHealth~FinerLife ReGenesis Center we now exist formally as the experienced, world-renown international center of excellence we have been for decades at EnteroLab.com, specializing mainly in diagnosing and treating Food-Related Syndromes (FRS), and their secondary disorders.

Food-Related Syndromes and Related Disorders Benefited by Food Sensitivity Testing

INTESTINAL SYNDROMES

Celiac Disease
Non-Celiac Gluten Sensitivity
Microscopic Colitis
Crohn's Disease
Ulcerative Colitis
"IBS" - Irritable Bowel Syndrome

The environment causing hyperimmunity is affecting all living beings around us, including our pets. By observing such disorders in his own pet dogs and the wrong-nature in which the grain-free dog food industry has flourished (like the gluten-free human food industry), EnteroLab.com's founder, Kenneth Fine, MD has researched and is now offering his patented food sensitivity testing for pet dogs as well. These tests for dogs and humans can be explored and ordered at EnteroLab.com.

For Your Health, Happiness and Hope!

At The FinerHealth~FinerLife ReGenesis Center, we restore hope to the hopeless, as we incorporate the healing power of God in our professional paradigm.

SPIRITUAL HEALTH

"For Your Health, Happiness and Hope" and "Inspiring and Creating Goodness for Goodness' Sake"

You are not just your body.
You are not just your mind and emotions.
You are not just a soul with a spiritual function.
You are all of these...the whole

Many of the services and programs of the FinerHealth~FinerLife ReGenesis Center deal with human bodily health. Some for mental and emotional health. And some more for spiritual health.

Our programs and services are unique and influenced by our founder Dr. Kenneth Fine, M.D., a medical doctor and scientist since 1986, and, since 2006, the world's only Physician-Musician on a Mission. He is a renaissance man, active and excelling in science; medicine; biotech invention; writing, recording and playing music and songs; writing website content, books, and video content; and existing as a Holy Man in the service of The Creator with two stated missions:

- **"For Your Health, Happiness and Hope"**
- **"Inspiring and Creating Goodness for Goodness' Sake"**

Additional to these activities, Dr. Fine is an Educator. Therefore, at the FinerHealth~FinerLife ReGenesis Center, our primary goal and purpose is to teach you about health, nutrition, diet, life habits, exercise routines, how to be happy in a challenged world, and how to be successful alongside The Creator to fulfill your life purpose.

At the FinerHealth~FinerLife ReGenesis Center We Believe in the Following Spiritual Concepts:

- Spiritual Health is the foundation of health and life. We are powerful spiritual beings in a human body living a destined life on a material plane within a paradigm of Free-Will. Therefore, our lives are also dictated pradoxically (additional to destiny) by our choices, priorities, values, ethics and moral codes which influence the Free Will given to us by the Supreme Creator of the Universe.

- Reality is a consequential outcome of your consciousness. Consciousness is an existential entity given by the Creator that functions to allow us to exist on this material plane while maintaining an energetic/spiritual connection with that Creator. The Creator has different names in different life/religious paradigms – many names in Hebrew; God in English; Dios in Spanish; Theos in Greek, Gott in German, etc. But there is just One Creator.

- What you call the Supreme Creator does not matter as much as what your relationship is with that One Source. We must realize that the entire reason for our existence (having been created) is to execute a purposeful life plan so as to advance the evolution of our soul and consciousness to a state of Oneness with our Creator. And also at the same time, helping co-create on this material plane for "Good"; to be in service to other people, to The Creator, and to the world.

- Part of having Free Will is that we execute our choices within a spectrum that exists between the duality of Good and evil, and how those choices connect to an outcome scenario. "Positive outcome scenarios" come from certain sets of choices, priorities, values, ethics and moral codes, and "negative outcome scenarios" come from others. But even what we consider positive or negative is determined by the same consciousness factors. So really, our individual consciousness and how we consider our outcome scenarios to be (Good, bad, functional, dysfunctional, etc.) exists within increasingly more collective consciousnesses: neighborhood, town, city, state, country, continent, world, religion, political affiliation, etc. The challenge then is to align our individual and increasingly greater collective consciousnesses with those Universal and of The Creator's intent for us, having given us life again.

- The energetic fuel of the "engine of life" is derived from the 11 Sefirot of the Tree of Life, made known to the world since Biblical times through the teachings of Kabbalah. Generally speaking we must be fearless, faithful, loving, kind, strong, wise, understanding, intelligent, magnificent, and creative, all the time maintaining our conscious connection to The Creator in Heaven, while keeping our "foundational roots in the earth" and remaining universally connected to our human brothers and sisters everywhere, knowing that All is One.
